

Logging school computers onto a home wifi network.

<p>Once computer has started up find this icon in the lower right corner of the screen.</p>	 A screenshot of the Windows taskbar. The network icon, which is a globe with a Wi-Fi signal, is highlighted with a red square. To the right of the network icon are icons for volume, battery, and network status. The system tray shows the time as 3:05 PM and the date as 12/9/2022.
<p>Find your network.</p>	 A screenshot of the Windows network settings window. It shows a list of available Wi-Fi networks: Fairfax, DIRECT-1DaL4EB34A6EDGOq0, Verizon_F44NFH, FiOS-001J9, and HKDCME. Below the list, there is a section for "Network & Internet settings" with a subtext "Change settings, such as making a connection metered." At the bottom, there are three toggle switches: "Wi-Fi" (which is turned on and highlighted in green), "Airplane mode" (turned off), and "Mobile hotspot" (turned off). The taskbar at the bottom shows the time as 3:05 PM and the date as 12/9/2022.

Select the network you want to connect to. It may ask you for a password. Then click Connect.

This icon means you are connected to wi-fi.
