

Conexión de las computadoras de la escuela a una red wifi doméstica.

<p>Una vez que la computadora se haya iniciado, busque este ícono en la esquina inferior derecha de la pantalla.</p>	 A screenshot of the Windows taskbar. The network icon, which is a globe with a signal strength indicator, is highlighted with a red square. To the right of the network icon, the system tray shows the time as 3:05 PM and the date as 12/9/2022.
<p>Encuentra tu red.</p>	 A screenshot of the Windows 'Network & Internet settings' window. The window title is 'Network & Internet settings' and it includes the subtitle 'Change settings, such as making a connection metered.' Below this, there are three toggle switches: 'Wi-Fi' (which is turned on and highlighted in green), 'Airplane mode' (turned off), and 'Mobile hotspot' (turned off). Above these toggles, a list of available Wi-Fi networks is shown, including 'Fairfax', 'DIRECT-1DaL4EB34A6EDGOq0', 'Verizon_F44NFH', 'FiOS-001J9', and 'HKDCME'. The bottom of the screenshot shows the Windows taskbar with the same network icon highlighted as in the first screenshot, and the system tray showing the time as 3:05 PM and the date as 12/9/2022.

Seleccione la red a la que desea conectarse. Puede que te pida una contraseña. Luego haga clic en Conectar.

Este ícono significa que está conectado a wi-fi.
